

iTerminal™

BENEFITS AT A GLANCE

- Collect payments quickly and conveniently for you and your customers
- Accept card payments wherever you can take your PC
- Get started without complicated setup and save on startup costs

The screenshot shows the iTerminal web interface. At the top, there's a navigation bar with 'switch id | log out | help' and the 'CHASE Paymentech™' logo. Below that, a menu includes 'NEW ORDER | FLEXCACHE | OPEN BATCH | HISTORY | REPORTING | ADMIN'. The main content area is titled 'iTerminal' and 'New Order'. It prompts the user to 'Swipe card or click the button to continue'. Merchant information is displayed: 'Merchant DBA: iTerminal Demo Merchant', 'Merchant ID: 700000004502', and 'Terminal ID: 001'. Below this, there's a section titled 'Process a Credit Sale' with a 'Swipe Card' input field and a 'Manually Enter the Card' button.

Accept Card Payments Through Your PC

Chase Paymentech's iTerminal makes it easy for you to start accepting card payments now. Whether you want to begin accepting card payments for the first time, need to replace an old terminal, or simply need an additional go-anywhere payments solution, iTerminal is your answer.

The full-functioned iTerminal application resides on the Internet. With it, you can complete everything from sales authorizations and refunds to voids, prior authorized sales and settlement, just as you would with a point-of-sale terminal.

- Accept all major credit cards
- **NEW!** Process PIN debit transactions in addition to signature debit
- View transactions in open batch status
- Run batch queries based on batch or date parameters
- Process with confidence: secure and password-protected

Say Goodbye to Complicated Setup

iTerminal is plug-and-play. With our Help Desk associates ready to assist you 24/7, you'll be ready to process payments quickly and easily. All it takes is your PC,

a card reader or PIN pad¹, and a reliable Internet connection. There is no terminal to purchase, no additional phone line, and no re-programming.

Take Card Payment Options Right to Your Customer

Using iTerminal means that you can collect card payments wherever you have Internet access. Is your business mobile? With your PC and a wireless connection, you can take advantage of wireless hotspots. And you're not restricted to using any single PC – you can accept payments at almost any computer with an Internet connection.

Ideal for doctor/veterinary offices, medical supply companies, legal offices, contractors, accounting firms and more!

START SAVING TODAY

How much could you save with PIN debit?

With a PIN pad¹, you can accept PIN debit payments through iTerminal. Accepting PIN debit means you pay lower interchange rates than you would for signature debit.

NBS 7100 PIN Pad

Control and Track User Access

iTerminal gives you the flexibility to designate user access by logon. Control permissions and track users' history by assigning one of these three access levels:

Manager Full Access: No security restrictions and full rights to all features without having to enter access codes

Administrator Read-Only Access: Read-only rights to iTerminal screens and report generation

Store Regular Access: User must enter correct access codes where enabled

iTerminal Requirements

- **Windows 2000, XP or Vista with supported Internet browser:**
 - Microsoft® Internet Explorer® 6.0 or 7.0
 - Mozilla® Firefox® 2.0
 - SUN® Java JRE v1.4.2 and higher (if using PIN pad for PIN debit acceptance)
- **Apple® OS X with Internet Explorer® 5.0 or Safari® 1.0²**
- **A USB port, version 1.1 or 2.0 for connected card reader; or serial port (DB-9m) for connected PIN pad**

Make the Right Call

For more information on how iTerminal can work for your business, call **800.824.4313**

¹Requires a certified NBS 7100 or VeriFone SC 5000 PIN Pad. ²Apple® OS X not supported with PIN debit.
